

The Fin Chaser 430T is built to be the perfect runabout for day trips to your favourite coastal fishing and diving spots.

The Fin Chaser 430T was our first ever Fin Chaser model and has proven to be a fantastic performer.

Built from 3mm and 4mm marine-grade aluminium, these boats are built tough. The wide hull design ensures the ultimate in ride and stability at rest. High sides, wide side decks, swivel seats and great storage add to the features you would only expect to find in a much larger boat. Designed for inshore fishing/diving the Fin Chaser 430T has constantly impressed its new owners with its great sea keeping ability, even when being pushed in rougher weather than planned. Its stability, safety and Fin Chaser Unique Features including the Fin Chaser Passive Live Bait Tank have helped anglers target and catch the fish they love, including many Marlin captures on both the East and West coasts.

PACKAGE INCLUDES

- 265 KAHIKATEA DRIVE, HAMILTON

It is coming up 14 years since my mate Gareth and I purchased our Fin Chaser 430 Tiller Steer. The Fin Chaser Boat range had only been released a year or so earlier and it took a bit of convincing from Gareth to splash out on a new boat package. In fact, we even had a few good mates telling us we would be better off spending our money on a second-hand boat that had a cabin and a steering wheel.

Thankfully though we continued through with our purchase with the good help from Fish City Hamilton (now Fin Chaser Marine). Growing up in Thames I had fished the firth of Thames and Coromandel a lot so those first few years a lot of our efforts were concentrated on the Coromandel. Since then we have fished from Parengarenga Harbour in the north to Lake Otamangakau in the central north island and plenty of places in between. The Min Kota riptide electric motor installed last summer has added to the fish catching ability of the Full Mongrel. From sneaking through the shallows chasing cruising trout to spot locking on kingfish schools on Coromandel's east coast it has been worth every cent. The Fin Chaser 430 is easy enough for one person to launch and fish from through to being able to accommodate two to three anglers comfortably. The Fin Chaser 430 is one versatile, tough little hombre and we wouldn't swap it for anything, well maybe only another FC Boat!!

– Karl & Gareth – Fin Chaser 430T
